

# Hi, I'm Chelsea.

I'm a sophomore at MIT studying CS, biology, data science, and design. I'm interested in bringing together ideas from interdisciplinary fields in order to create aesthetic, accurate, and compelling work. I'm particularly passionate about how technology is used in communication, whether through data, art, or research.

**designed using Procreate**

### Lotus Design (200x200)

*January 2021, personal project*

**designed using Procreate**

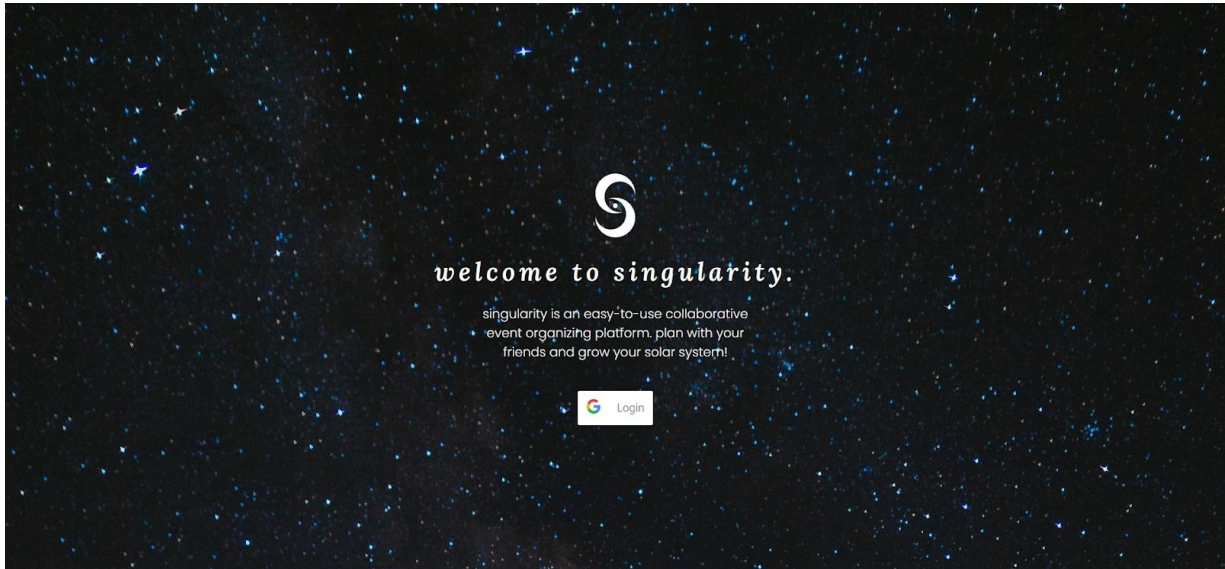

## Website Designs

### Singularity Website

January 2021, MIT web.lab Project

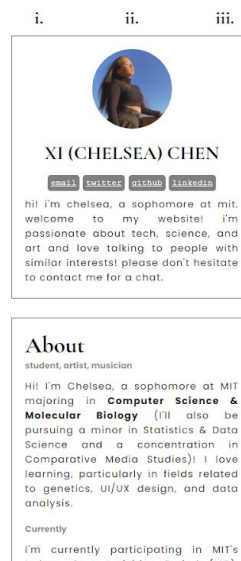

Website -- created using React.js, HTML, CSS

### Personal Website ([chxchenx.github.io/chxchen](https://chxchenx.github.io/chxchen))

December 2020, personal project

Static Website -- created using HTML, CSS

January 2021, personal project -- unaffiliated with Archive of Our Own

**Full Project:** <https://xd.adobe.com/view/1f85a12e-97dd-4742-a450-e008b0d7fb39-4ad6/?fullscreen>

# Goodreads UI/UX App Redesign

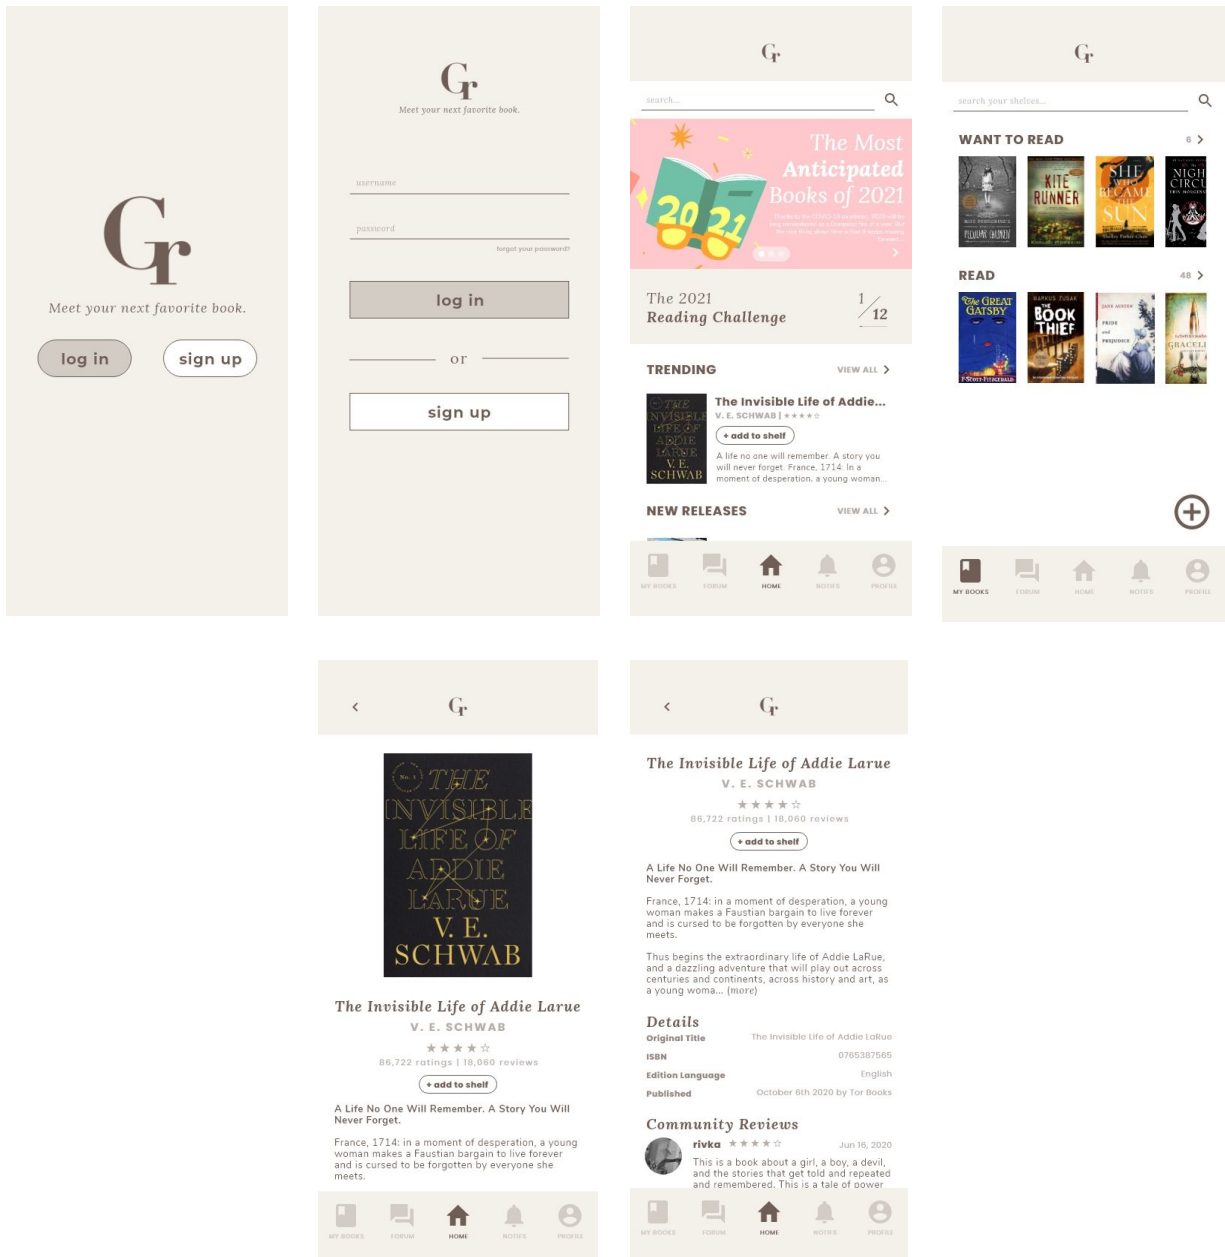

January 2021, personal project -- unaffiliated with Goodreads

This is a mobile redesign of the Goodreads app, focusing on modern aesthetics and user-friendly functionality.

Using reviews on the app store, I attempted to address major user concerns, such as:

- design caused the app to be difficult to navigate
- difficult to connect with friends using app features
- lack of aesthetics

full project: <https://xd.adobe.com/view/0ef52ef8-f2de-4c8e-8e1e-4ab6a105fb8a-5ba6/?fullscreen>

## Banners/Posters

### Students Against I.C.E. Informational Post

July 2020, personal project -- Instagram story

## **Undergraduate Research Technology Conference Publicity Poster**

*August 2020, for Undergraduate Research Technology Conference (URTC) -- Instagram story*

## Sketches
